

# The Precise Notary

"To face tomorrow with the thought of using the methods of yesterday is to envision life at a standstill. Each one of us, no matter what our task, must search for new and better methods—for even that which we now do well must be done better tomorrow." ~James F. Bell~

## How is Your Thinking?

In order to keep your business performing at a high level you need to direct your thinking in a positive direction. Negativity bombards all of us on a daily basis but we must keep our focus on the positive.

The financial markets go up and down and interest rates affect closings in a big way. Many times a notary has to seek alternative sources of income when one of your primary resources is not performing. Sadly most states have limitations on what a Notary can charge for notarial acts. Make sure you augment your remuneration through travel charges or other allowable fees.

Remember the future is never far away. It is up to us to find newer, smarter ways to energize our business and bring in new profits. Be sure to get involved in your state and exert influence in bringing the Notary profession into the 21<sup>st</sup> century.

Don't let a day pass without pondering how you can innovate and make your business model more profitable.

"Once you replace negative thoughts with positive ones, you'll start having positive results."

We welcome you to partner with  
Precision Notary Group

If you don't build your own dream,  
someone will hire you to build theirs."
