

# The Precise Notary

"To face tomorrow with the thought of using the methods of yesterday is to envision life at a standstill. Each one of us, no matter what our task, must search for new and better methods—for even that which we now do well must be done better tomorrow." ~James F. Bell~

## Prospecting Success

Finding treasure is the hope of many seekers. There is a burning desire within the heart of explorers to find treasure from a sunken ship or happen up on a trunk filled with gold. How can this desire be translated into making your business a true success?

Become a "prospector" outside of business as usual. While it is only human to follow a pattern or a pre-plotted map, but there comes a time to leave the beaten path and prospect for success outside of the normal business model. It could be your challenge of 2019 to grow your business in spite of what is happening in this current business environment.

*"You can either be a victim of the world or an adventurer in search of treasure. It all depends on how you view your life."*

I encourage you to take a few moments each day to allow yourself to think and observe. Look at the articles in magazines with a different set of eyes and view the encounters you have throughout the day from a different perspective. It takes more than just preconceived plans to be successful. The Notary profession is undergoing changes. Technology has brought us to a place where it must receive due consideration.

It will be up to you to educate yourself and the state within which you have a commission. Always be prospecting so that your business can stay on the leading edge of changes to come.

We welcome you to partner with  
Precision Notary Group

If you don't build your own dream,  
someone will hire you to build theirs."
